

Petition to Regulate the Oil Industry

We the undersigned, call for immediate action by the Obama Administration, U.S. Congress, California State Legislature, and local government officials to put into effect the following regulations for the oil industry to protect communities and residents.

- All new activity must be developed and maintained in unpopulated areas.
- In areas where this cannot be avoided all affected residents will be compensated or bought out, with the choice being decided by the property owners.
- The oil company must maintain a bond in the event of an emergency to correct ALL damages to the community and residents.
