South Bay 1 week 5 earthquakes all originated in Carson

Week of August 30 - September 5, 2015

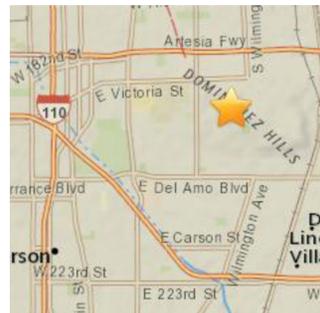

The yellow dots show the location of all earthquakes in the South Bay area last week.

Centered around the Oxy Project location 4 hit and the other possibly an aftershock that hit near city hall.

August 31, 2015 9:05 AM

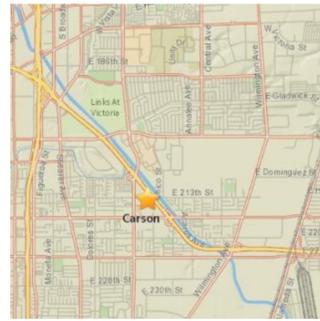

August 31, 2015 9:07 AM

September 1, 2015 12:07 AM

September 1, 2015 6:15 AM

September 3, 2015 12:31:32 PM

City staff told us they checked with Oxy who stated the **Oxy Project is NOT fracking, or water flooding**. Without well stimulation they are causing damage to our city. Our city attorney has stated if we ban fracking it would be an **automatic unwinnable quarter of a million dollar lawsuit**. We received reports the planning commission is ready to pass a ban on fracking. If this ban is passed, it **will allow more wells like the 2 Oxy is operating** which can be tract to all 5 earthquakes last week. We've already begun the process of becoming another Oklahoma who went from 2 to 875 earthquakes a year.

[Oklahoma Report](#)

Given these facts there should be **No New Drilling in Carson**. The City of Carson has a right to ban new drilling which will keep the damage to a minimum and allow some wells to remain. So let's ban ALL New Drilling in Carson the same as other cities have and eliminate the threat of exposure to contamination, earthquakes, and lawsuits.

Importance of the oil ordinance to Carson Companies

August 13, 2015
 403 B Road
 Carson, CA 94401
 Attention: City Planning Commission
 1500 S. Main
 Carson, CA 94401
 Dear Commissioners:
 Re: Proposed City Ordinance (C.O. 15-01) to Amend Ordinance 15000, which relates to the regulation of oil and gas operations in Carson, California.

In this letter from Carson Companies in the paragraph entitled **Importance of the oil ordinance to Carson Companies** it is stated 98% of the mineral rights belong to individuals and charities that have been gifted interest, they estimate the value of oil to be worth \$2.5 to 4 billion.

They want to **make the city and the residents responsible** for the **bad business decisions** made to populate the land that contains oil, and not keeping any of the surface rights. **They want us to make good on gifts they gave**. Nowhere in this letter does it address the earthquakes drilling along the fault causes.

If this ordinance passes, it gives our rights to protect our people, community, and future over to those interested in getting the oil out from under our homes. Banning New Drilling is mealy a community exercising their rights.

The South Bay has had a dramatic rise in earthquakes

WARNING

Chemicals known to the State of California to cause cancer, birth defects or other reproductive harm are contained in crude oil, gasoline, diesel fuel and other petroleum products and byproducts.

Chemicals known to the State of California to cause cancer, birth defects or other reproductive harm are also contained in and around oil fields, service stations, refineries, chemical plants, transport and storage operations, including pipelines, marine terminals and tank trucks, and other facilities and equipment that manufacture, produce, process, handle, distribute, transport, store, sell or otherwise transfer crude oil, gasoline, diesel fuel or other petroleum products or byproducts.

The foregoing warning is provided pursuant to Proposition 65. This law requires the Governor of California to publish a list of chemicals "known to the State to cause cancer or reproductive toxicity." This list is compiled in accordance with a procedure established by the Proposition, and can be obtained from the California Environmental Protection Agency. Proposition 65 requires that clear and reasonable warnings be given to persons exposed to the listed chemicals in certain situations.
