Carson California USA Invites Oil Drilling and Fracking into South Bay

Carson city council **votes to welcome oil drilling on the Newport-Inglewood fault** into our densely populated South Bay Communities. Among many other things, they voted to allow **oil rigs 750ft from our residential communities, oil drilling directly under our homes and schools**, and to **make the residents responsible to pay more than 4 billion dollars to stop fracking**. [Read more ...](#)

At What Cost to the Residents

Beverly Hills and Torrance, California both came up with ordinances that allow NO NEW DRILLING at **no cost to the city or its residents for this ultimate protection**. Hermosa Beach residents only have to **pay** E & B Natural Resources their **investment to stop oil drilling**. The elected officials here in Carson California have voted to make the **residents responsible to pay** the oil interests **their expected profits**, which is **more than 4 billion dollars** (in North Carson) just to stop fracking. Inaccurate/fraudulent statements made to force extreme oil drilling on the Newport-Inglewood fault

City Attorney Sanaz (Sunny) K. Soltani made the statement that the loophole is not a loophole, it's a legal standard".

In fact, it is a loophole, which makes the residents responsible for the expected profits of the operator.

Appointed Mayor Albert Robles and assistant city attorney Shannon L. Chaffin's states there will be no drilling operations/production in residential areas. **The truth of the matter is they will be drilling directly under our homes.**

Inaccurate/fraudulent statements also include "we have no water injection for disposal"; California standard is the wastewater is to be injected into the same formation/zone that is producing the oil and water. **This activity is exactly what has caused Oklahoma to go from 2 earthquakes a year to 857**

magnitudes 3 or greater in 2015. If they presented clear and accurate information this ordinance would never pass.

SPECIAL THANKS

Thanks to Glen White for standing up for the residents of Carson!

IN THE NEWS

60 MINUTES - Oklahoma's Rise in Quakes Linked to Man-Made Causes

If you missed 60 minutes regarding oil-drilling earthquakes, you need to look at what the people who hold elected positions in the City of Carson voted to do to not just Carson but to the South Bay. One of these oil-drilling earthquakes shook 14 states. This report was emailed to city council and staff before the 2nd reading of the oil & Gas. More on [60 Minutes Overtime](#)

Michael Moore on How Politicians Committed Hate Crimes on Minorities

It's not like the water in Flint Michigan where the contamination is controlled. We do have a lot in common with Flint in that our politicians have sold us out!

Fruits & Nuts Watered with Oil Drilling Waste Water

While we are on the subject of water, did you ever imagine we would be using oil-drilling wastewater to water our produce? Farmers are watering our grapes, pistachio, and Halos tangerines with wastewater. Yes, Halos which targets our children, waters with oil drilling wastewater. Just a coincidence that the epidemic of autism hit after the first crops went out to market?

Is There Really an Autism Epidemic?

A closer look at the statistics suggests something more than a simple rise in incidence.

If the statistic one in 166 has a familiar ring, perhaps that's because you recently heard it on a television commercial or read it in a magazine. According to widely publicized estimates, one in 166 is now the proportion of children who suffer from autism. This proportion is astonishingly high compared with the figure of one in 2,500 that autism researchers had accepted for decades. Across a mere 10-year period--1993 to 2003--statistics from the U.S. Department of

Education revealed a 657 percent increase in the nationwide rate of autism.

Carson Connected started our work here in Carson in July 2010 almost 6 years ago. During this time, we've been providing information regarding issues that affect the health and well-being of our families and communities. We have never received any complaints or requests to change or correct any information we have provided.

We are proud to say it's because we work very hard to provide you with the facts.

We've made it easy for you to contribute in this fight against new drilling in Carson.

Carson Connected's Go Fund Me

100% of all contributions will go directly to fund the fight for
No New Drilling in Populated Areas.
